Contents of the Revision of the Technical Intern Training Program

Strengthen management and supervisory system and protect technical intern trainees in order to accomplish the purpose of this program, contributing to the development of human resources who would lead the economic development of their home country.

guidance and consultation system, etc., not to mention no violation of laws and regulations

OTIT (Organization for Technical Intern Training)

Structure of Technical Intern Training Program

Technical Intern Training Program aims to contribute to developing countries by accepting people from these countries for a certain period of time (maximum 5 years) and transferring skills through OJT. (This program was established in 1993.)
 Approximately 360,000 technical intern trainees (as of the end of June 2023) reside all over Japan, and labour-related regulations are applied to them under employment relationships except the lecture period just after the entry.

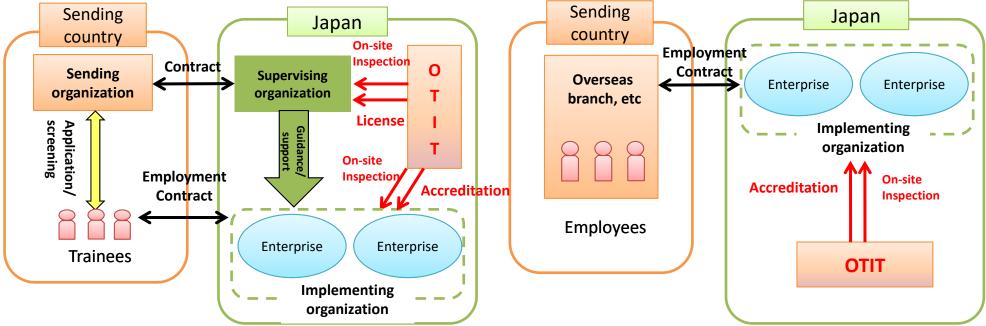

Types of Technical Intern Training Program

[Supervising Organization Type]

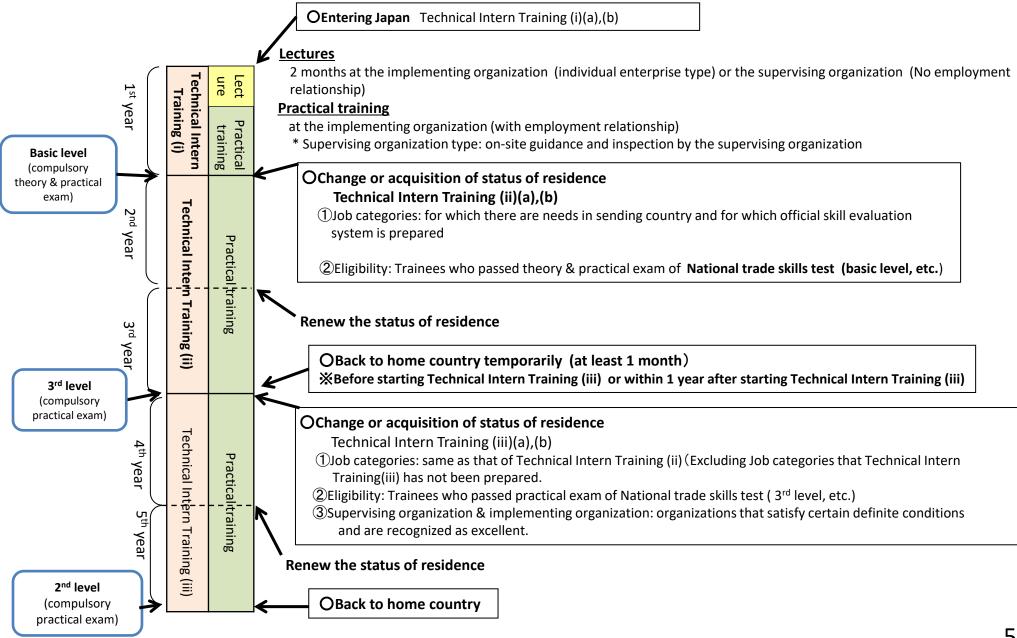

Non-profit supervising organizations (chambers of commerce, etc.) accept Technical Intern Trainees and each implementing organization conducts the training.

【Individual Enterprise Type】

Japanese companies (Implementing Organizations) accept staff members of their overseas offices, joint-ventures or business associates, and conduct the training

Flow of the Technical Intern Training Program

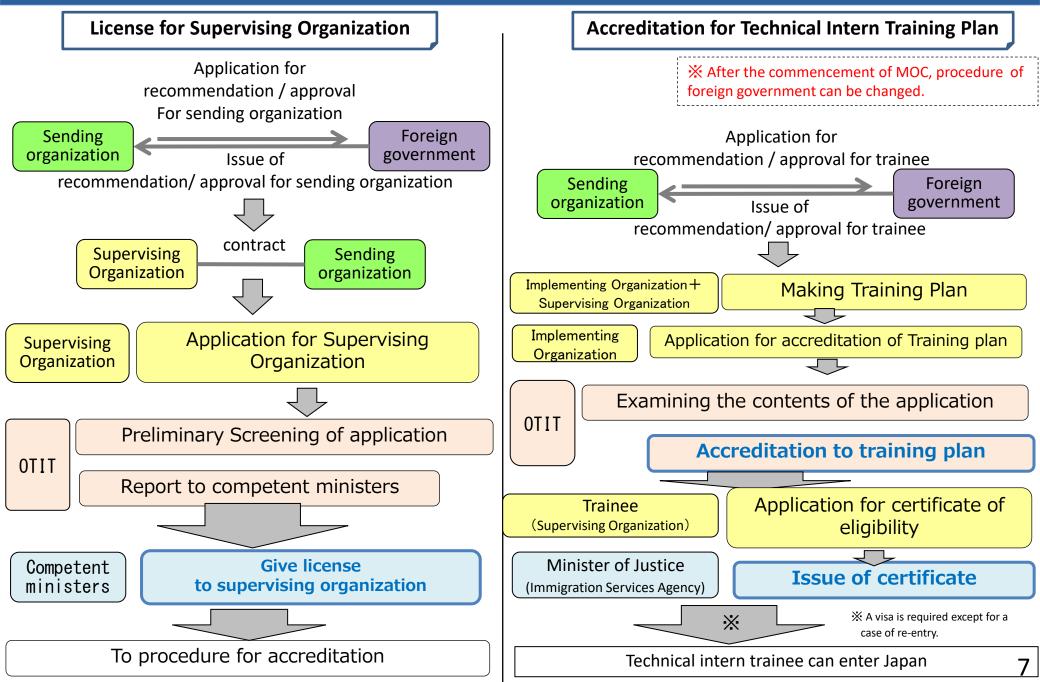

Job categories & operations eligible for shifting to Technical Intern Training (ii) (165 Operations in 90 Job categories as of 31 October 2023)

1. Agriculture (6 operations in 2 jo	ob categories)	4. Food Manufacturing (18 operations in	11 job categories)	6. Machinery and Metals(continue)		
Job categories	Operations	Job categories	Operations	Job categories	Operations	
Cultivation agriculture Facility horticulture		Can seaming for canned foods	Can seaming for canned foods	Finishing	Melting equipment finishing work

Procedures of application for License / Accreditation

Criteria for Accreditation of the Technical Intern Training Plan

O A person who intends to conduct technical intern training shall prepare a technical intern training plan for each technical intern trainee, and shall submit it in order to seek accreditation. The criteria for accreditation have been established in order to ensure the appropriateness of the technical intern training plan. (Article 9 of the Act)

Main criteria to be met for accreditation of the Technical Intern Training Plan

① The skills, etc. which the technical intern trainee is to acquire would be difficult to acquire in the home country of the technical intern trainee

2 Goals of the technical intern training

(Goal of technical intern training (i)): to pass the practical test and paper test of the basic trade skills test or an equivalent technical intern training evaluation examination, etc.

(Goal of technical intern training (ii)): to pass the practical test of the grade 3 trade skills test or an equivalent technical intern training evaluation examination

(Goal of technical intern training (iii)): to pass the practical test of the grade 2 trade skills test or an equivalent technical intern training evaluation examination

③ Content of the technical intern training (*)

- The skills, etc. cannot be acquired mostly through the repetition of simple work.
- In cases of technical intern training (ii) and technical intern training (iii), they are related to the occupations and operations listed in the Appended Table of the ordinance of the competent ministries.
- It is work that is normally performed at the place of business which conducts the technical intern training.
- In cases relating to occupations and operations subject to transfer the required work is one-half or more of the total number of hours spent engaging in the work, the related work is one-half or less of the total number of hours spent engaging in the work, and the peripheral work is one-third or less of the total number of hours spent engaging in the work.
- The technical intern trainee has experience of engaging in the same kind of work in a foreign country as the work the trainee intends to engage in while in Japan, or there are special circumstances necessitating the technical intern trainee engage in the technical intern training (only in cases pertaining to supervising-organization-type technical intern training).
- The technical intern trainee plans to engage in work requiring the skills etc. acquired in Japan after returning to his or her home country.
- In cases of technical intern training (iii), the technical intern trainee returned to his or her home country for one month or more after completion of technical intern training (ii), or for one month or more and less than one year within one year after starting technical intern training (iii).
- The technical intern trainee or a family member, etc. has not entered into a contract which stipulates the paying of a deposit or penalties, etc. (this shall be made clear through a document prepared by the technical intern himself/herself).
- Post-entry lectures on subjects such as Japanese language, and immigration and labor related laws and regulations shall be conducted for technical intern trainees (i).
- In cases of multiple occupations, these are all occupations subject to transfer, they are related to each other, and there is a rational reason as to why they should be implemented together.

8

- ④ The period of implementing the training (within one year for technical intern training (i), and within two years for technical intern training (ii) and (iii))
- ⑤ The goals set for the technical intern training at the previous stage (the goal of technical intern training (i) for technical intern trainees (ii), and the goal of technical intern training (ii) for technical intern trainees (iii))) have been achieved.
- 6 Implementation of appropriate evaluation of the skills, etc. (to be evaluated through a trade skills test or a technical intern training evaluation examination, or other equivalent examination)
- ${f {ar v}}$ Establishment of an appropriate structure and equipment for the place of business and appointment of managers (*)

Appointment of the following persons for each place of business

- "Technical intern training manager" (person in charge of the implementation of the technical intern training): a full-time officer or employee who is able to be in the position of supervising the staff involved in the technical intern training and who has completed the course for technical intern training managers within the past 3 years.
- "Technical intern training instructor" (person responsible for instruction for the technical intern trainees): a full-time officer or employee who has at least 5 years experience with regard to the skills which the trainee is to acquire (a person who belongs to a place of business where technical intern training is conducted).
- "Living guidance instructor" (person responsible for everyday living guidance for the technical intern trainees): a full-time officer or employee (a person who belongs to a place of business where technical intern training is conducted).
- The applicant has not committed an act of human rights violation or used a forged or altered document within the past 5 years
 The place of business is equipped with the machinery, equipment, and other facilities necessary for the acquisition of the skills
- (8) The implementing organization is to undergo supervision from a supervising organization that has obtained a license <in the case of supervising-organization-type technical intern training>
- (9) Ensuring appropriate treatment of the technical intern trainees, such as paying no less remuneration than a Japanese national would receive for the same kind of work (*)
- The amount of remuneration is no less than a Japanese national would receive for the same kind of work (documents must be attached to prove this, and the applicant must be asked to give an explanation).
- · Appropriate accommodation facilities have been secured, and measures have been taken to enable the technical intern trainees to concentrate on their post-entry lectures.
- An agreement has been reached with the technical intern trainee on an appropriate amount with regard to the expenses to be paid for regularly by the technical intern trainee regardless of whether they are food expenses, accommodation expenses, or other expenses (a description of the items and amount of the costs must be given in the technical intern training plan, A document should be attached indicating that the technical intern trainee has understood and that the amount is appropriate).

(1) Compliance with the requirements of excellence <Cases of technical intern training (iii) > (See Attachment 1)

(1) Must not be in excess of the maximum number of technical interns to be accepted (*) (See Attachment 2)

(*) With regard to ③ ⑦ ⑨ ⑪, in cases where the competent minister for the business pertaining to specific occupation has specified additional requirements through a public notice, the implementing organization -or the supervis g organization for the occupation is also required to meet the criteria of the additional requirements.

Licensing Criteria for the Supervising Organizations

A person who intends to conduct supervision business is required to obtain license-from the competent minister. Licensing criteria have been established for the license, and license will not be granted unless the criteria have been met. (Article 23 and Article 25 of the Act)

Main licensing criteria for the supervising organizations

1 A juridical person not for the purpose of profit (*)

A Chamber of Commerce and Industry, Chamber of Commerce, Small Business Association, vocational training corporation, agricultural cooperative, fisheries cooperative association, public interest incorporated association or public interest incorporated foundation, etc.

- ② Sufficient ability to adequately execute business in accordance with the criteria for conducting the work of a supervising organization (the following I-IV are representative examples) (*)
 - I. Periodic audits of the implementing organization of the technical intern training (the frequency with which the audit must be conducted is at least once every three months as with the current program, and the audit must be conducted through the following methods)
 - a. Onsite check of the implementation status of the technical intern training
 - b. Receipt of reports from the technical intern training manager and technical intern training instructor
 - c. Interviews with at least one-quarter of the currently enrolled technical intern trainees
 - d. Checking of the facilities at the place of business, and inspection of the books and records, and other articles.
 - e. Checking of the accommodation facilities and other living environment of the technical intern trainees
 - I Implementation of post-entry lectures for technical intern trainees (i) (clarification that it can be entrusted to an appropriate person)
 - III Guidance on preparing the technical intern training plan
 - For the guidance, checking of the place of business which will be implementing the technical intern training and the accommodation facilities for the technical intern trainees
 - From the perspective of ensuring the technical intern trainees acquire the skills, etc. appropriately and effectively, a person who has a certain amount of experience pertaining to the skills, etc. is to be put in charge of the guidance.
 - IV Responses to consultations from the technical intern trainees (giving of advice, guidance and taking of other necessary measures in order to respond appropriately to a consultation from a technical intern trainee.)
- ③ Existence of a financial base which is sufficient to ensure sound implementation of the supervision business
- (4) Necessary measures are being taken to properly manage personal information
- **(5)** Implementation of measures for external officers or external audits
- (6) A contract pertaining to mediation for technical intern trainees has been entered into with a sending organization in a foreign country which meets the criteria
- ⑦ Compliance with the requirements of excellence <Cases of conducting supervision business for technical intern training (iii) > (See Attachment 1)
 ⑧ In addition to ① to ⑦, possessing the capability to properly carry out the supervision business

The supervising organization shall be deemed not to have the capability to properly carry out the supervision business if it does not satisfy the following items

- .• A supervision fee of an appropriate type and amount is collected after a clear indication of the use and amounts has been given beforehand (Article 28 of the Act)
- It has not let another person carry out the supervision business through use of its name (Article 38 of the Act)

• An appropriate supervision manager has been appointed for each place of business (Article 40 of the Act) * The supervision manager must be a full-time employee who belongs to the place of business and has the capability to properly carry out the work for supervision managers. In addition, the supervision manager must be a person who has completed a course for supervision managers within the past 3 years.

(*) With regard to ① and ②, in cases where the minister having jurisdiction over the business has specified the requirements through a public notice, the supervising organization for the occupation is required to meet the criteria of the requirements.

10

O For implementing organizations, compliance with the criteria specified in an ordinance of the competent ministries as meeting the required high standards of capability to have the technical intern trainees acquire the skills, etc. (Article 9, item (x) of the Act)

O For supervising organizations, compliance with the criteria specified by an ordinance of the competent ministries as meeting the high standards of capability to conduct the audit of the implementation status of the technical intern trainees, and other work (Article 25, paragraph (1), item (vii) of the Act)

In both cases, if the score is 60% or more of the total score, the organization will be deemed to comply with the criteria for excellent implementing organizations or supervising organizations.

O For occupations with special circumstances, the number of trainees provided for in the notice specified by the competent minister for the business pertaining to the specific occupation-.

O When accepting technical intern trainees who have transferred from another implementing organization due to unavoidable circumstances, it is possible to accept them separately from the above number of trainees.

Under the supervising-organization-type, the technical intern trainees are required to have '<u>experience of engaging in the same</u> <u>kind of work in a foreign country as the work to be engaged in while in Japan</u>', or '<u>special reasons to engage in the supervising-</u> <u>organization-type technical intern training</u>'. (Article 10, paragraph (2), item (iii)(e) of the Ministerial Ordinance)

Experience of engaging in the same type of work

A technical intern trainee is required to have experience in the sending country of engaging in the work related to the skills that the trainee intends to mainly acquire through the technical intern training in Japan. However, the names of the work in the sending country and in Japan do not need to be identical.

Special reasons to engage in supervising-organization-type technical intern training

(1) Having completed a curriculum related to the same type of work at an educational institution (including cases of expected completion) Any type of institution is acceptable, but the period of education needs to be at least six months or 320 hours. It is also necessary to submit all the following documents.

- Documents giving a summary of the educational institution (showing that the content of education is relevant)
- Documents certifying that the trainee has completed the relevant curriculum at the educational institution (including proof of expected completion)

2 Being able to give a detailed explanation of the necessity to engage in the training, and having received the minimum training required for the training

The examples of "a detailed explanation" are as follows.

- Need to engage in the training to take over the family business
- Need to engage in the training because of hoping to work in a rapidly growing field in the home country

In such cases, it is necessary to submit a written statement of reasons that concretely describe the necessity to engage in the technical intern training. In addition, the minimum training needs to be at least 320 hours over a period of at least 2 months, of which at least 160 hours over a period of at least 1 month must be Pre-entry lecture and at least 160 hours over a period of at least 1 month must be a course (both classroom learning and practice are acceptable) related to the technical intern training.

③ Being recognized that there is a particular need for technical cooperation between the implementing organization or supervising organization, and the sending country

In this case, it is recognized that the implementation of the technical intern training is based on an agreement to the effect of human resources development utilizing the technical intern training program between the implementing organization or supervising organization, and a public organization of the sending country. It is necessary to submit materials that demonstrate the necessity of technical cooperation between these organizations.

Requirements of Sending Organizations of Foreign Countries

○ The term, "Sending Organizations of Foreign Countries" (Article 23, Paragraph 2, Item 6 of the Act)

It is the organization that conforms to requirements specified by the ordinance of the competent ministries as an organization being able to forward applications for a job pertaining to supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training from the people who would like to be a supervising organization type technical intern training

Requirements of Sending Organizations of Foreign Countries

- (1) Being recommended from a public body of the sending country as an organization that is able to appropriately forward applications for technical intern training to Japanese supervising organizations
- (2) Appropriately selecting only the people who would like to receive technical intern training after understanding the purpose of the program, and then sending them to Japan
- (3) Regarding commission fees and other costs collected from technical intern trainees, making public the calculation criteria after clearly establishing the criteria, as well as clearly specifying these costs to technical intern trainees and making sure they fully understand
- (4) In order for the people who returned to their country after completing technical intern training to appropriately utilize the acquired skills, implementing necessary support such as finding a job
- (5) Responding to requests, including cooperation in follow-up surveys, from the Minister of Justice, the Minister of Health, Labour and Welfare, or the organization for Technical Intern Training
- (6) The relevant organization and its officers should not have the experience of being sentenced to imprisonment or a more severe punishment or an equivalent punishment under the laws and regulations of Japan or a foreign state where the organization is located within the preceding five years
- (7) Conducting business regarding technical intern training in accordance with laws and regulations of the country where the organizations are located
- (8) Within the preceding five years, not taking control of money or other properties of technical intern trainees or their relatives in relation to sending the trainees to Japan, irrespective of collecting deposits or other nominal terms
- (9) Within the preceding five years, regarding default of a contract pertaining to technical intern training, not concluding a contract to enact penalties or a contract to unreasonably transfer money or other properties
- (10) Confirming that the acts of (8) and (9) have not been conducted to technical intern trainees or their families, etc.
- (11) Not having conducted acts, such as using forged or altered documents, in relation to the technical intern training program within the preceding five years
- (12) In addition, having other necessary abilities to appropriately forward applications for technical intern trainings to Japanese supervising organizations

The Countries that created Memorandum of Cooperation

The government of the sending country examines whether or not sending organizations meet the above (1) - (12) requirements, and approves appropriate organizations.

Purpose

To promote cooperation between Japan and sending countries to ensure proper and smooth technical intern training

Main commitments

Japanese side	Sending Countries side
 To properly give the license to supervising organization and accredit technical intern training plans in accordance the criteria described in the Technical Intern Training Action To make the information about approved and revok sending organizations publicly available. To accept only to technical Intern trainees who are sent by approved sendorganizations. To notify the sending organization of the result whe Ministries of Japan revoke the license of a supervising organization or invalidate training plans, and issue an or against a supervising organization or an implementing organization. 	 To appropriately select only those who are motivated to engage in training with understanding of the objectives of the Technical Intern Training Program To provide trainees with necessary support such as finding a job after going back to their home country. Not to collect deposit and to conclude any contracts that impose monetary penalties. Not to do human rights infringement against trainees In the Or notify the Ministries of Japan of the result when the Ministry of sending country revokes the approval.
	by the Ministries of Japan.

Both sides

To hold periodical meetings about the Technical Intern Training Program

15 countries signing on MOC (As of January 2024) Viet-Nam (June 2017), Cambodia (July 2017), India (October 2017), Philippines (November 2017), Laos (December 2017), Mongolia (December 2017), Bangladesh (January 2018), Sri Lanka (February 2018), Myanmar (April 2018), Bhutan (October 2018), Uzbekistan (January 2019), Pakistan (February 2019), Thailand (March 2019), Indonesia (June 2019), Nepal (January 2024) If a supervising organization receives money not covered by the supervision fee from persons involved in the technical intern training including the sending organization (e.g., a supervising organization receives a kickback from the sending organization), the supervising organization is subject to revocation of its license and can be subject to penal provisions.

* This action violates the provision of Article 28 of the Technical Intern Training Act, and the supervising organization is subject to revocation of its license, as well as to imprisonment with work for not more than 6 months or a fine of not more than 300,000 yen in accordance with the provision of Article 111 of the Technical Intern Training Act.

If a supervising organization concludes an improper contract with a sending organization such as one with a provision of imposing penalties on the sending organization for default of contract and one with a provision that brings unjustified profits, such as kickbacks, its license can be revoked.

*For example, a contract to the effect that if a technical intern trainee has disappeared in Japan, the sending organization is supposed to pay money penalty to the supervising organization as a sanction.

<u>1 Consultation system and support system</u>

(1) Establish a report and consultation hotline in trainees' native languages

 O Trainees can use email as well as phone.
 Chinese, Vietnamese, Indonesian, Filipino, English, Thai, Cambodian, Burmese

(2) Develop a support system to change implementing organizations

O The Technical Intern Training Act obliges implementing organizations and supervising organizations to <u>submit a form in case of facing</u> <u>difficulties to continue the technical intern training (Articles 19 and 33)</u> and to take measures for the trainees to continue their training (Article 51).

O <u>In response to consultation</u> from trainees, OTIT <u>offers support such</u> as seeking new implementing organizations using available information.

(3) Offer trainees temporary accommodation facilities

O In case that a trainee is unable to use accommodation facilities provided by the supervising organization or the implementing organization, OTIT offers the trainee temporary accommodations.
 O OTIT helps the trainee find a new implementing organization.

(4) Help trainees do the procedure for taking examinations, such as the skill test

O OTIT gives support, such as contacting designated testing agencies and grasping pass/fail results promptly, based on the application from supervising organizations

2 Penalties

Penalties	Supervising organization	Implementing organization

	 <u>Stipulating penalties or</u> <u>predetermines compensations (Article</u> 47, paragraph 1) <u>Entering into a contract assuming</u> <u>control of the savings of the technical</u> <u>intern trainee</u> (Article 47, paragraph 2) 	Similar provision in the Labor Standards Act (Article 16, Article 18, paragraph 1)		
Imprisonment for not more than 6 months or a fine of not more than 300,000 yen	 ④ Retaining the passport or residence card of a technical intern trainee (Article 48, paragraph 1) ⑤ Imposing unfair restrictions on the technical intern trainees' freedom in their personal lives (Article 48, paragraph 2) ⑥ Subjecting the technical intern trainee to disadvantageous treatment, due to the trainee having reported the fact of violating the law to the Commissioner of the Immigration Services Agency and the Minister of Health, Labour and Welfare (Article 49, paragraph (2)) 			

st With regard to (4), punishment imposed in cases of doing against the trainee's will.

^{*} With regard to (5), punishment imposed in cases of indicating dismissal or other labor-related disadvantages and putting a restriction on going out outside of the training hours.

Consultation and information transmission for trainees

"Native language consultation" provides trainees with consultation services in their native language by phone or email on the specified days of week. Phone and face-to-face consultation services are also available at regional offices and branch offices (weekdays 9:00 to 17:00). In addition, they can get information on various support for trainees in their native language on social media (Facebook, Twitter) and "Technical Intern Trainee Handbook" app (URL: https://www.otit.go.jp/sns/index.html).

Native language consultation

Any technical intern trainees can file a claim or consult in eight languages by phone, email, online call (Zoom), or letter. Telephone charges are free by using the toll-free number. From 21 April 2021, the dedicated desk (technical intern training SOS / emergency consultation desk *) was opened to handle consultations on human rights violations such as assault and intimidation.

* After dialing the following number, press "1" after the automatic voice announcement.
