Announcement of Results of FY2018 Survey on Technical Intern Training Program

We, the Organization for Technical Intern Training conduct and publish the following survey.

Based on the results of the survey, we are committed to continue ensuring appropriate and smooth operation of the technical intern training program and make efforts to disseminate further understanding of the program for all person concerned.

1. Technical Intern Trainees Follow-up Survey (questionnaire for trainees)

This survey studies the post-training employment status, change of job grade and utilization of the technology, skills and knowledge acquired in Japan for the technical intern trainees who completed the technical intern training program and returned their home countries. The sample in Fiscal Year (FY) 2018 was 19,468 trainees who completed the technical intern training (ii) and returned or were scheduled to return their home countries (China, Viet Nam, Indonesia, Philippines and Thailand) within the period from August to November 2018, of which 5,257 responded.

2. Survey on Assistance to Technical Intern Trainees after Returning Home Countries (questionnaire for organizations)

This survey studies the employment status of the technical intern trainees who returned their home countries in FY2017, technology transferring assistance and learned achievements of skills, etc. acquired during the technical intern training for supervising organizations and implementing organizations of individual enterprise-type training (hereinafter collectively referred to as "supervising organizations, etc."). Of 2,072 organizations, 1,545 responded.

【Key points of survey results】
